Esq. J. L. Anderson was up from Clifty Friday. For many years he has been recognized as the champion watermelon grower of the county. This year he says his melons will be almost a failure due to the great amount of rain. We have similar complaints from numerous other persons along the same lines. Muskmelons seem to have stood the weather better and the crop promises to be fair at least.

L. W. Martin and wife returned from Cherokee, Ala., last week after looking over conditions there relative to making their home there. Mr. Martin will likely go there in a short time to take charge of the large timber work that Frazier and Self have under way there. They have several thousand acres of timber that will require several years to market and Mr. Martin is to have charge of the work.

Sheriff Geo. T. Walker was sworn in some days ago and in taking charge of the jail made a change in the person who looks after the jail and prisoners. Hiram Wyatt and family are now in charge. Mr. Wyatt is janitor at the court house and has rendered splendid service in that capacity. He will no doubt render equally as valuable service as jailer. Sheriff Walker plans to move his family to town in a few weeks and then will take charge of the jail in person. He is especially anxious to get to town as soon as crop conditions on his farm will permit so that his children may have the advantages of our splendid school.

We learn that a storm last week very seriously damaged a field of fine corn belonging to John Ettien, who lives on what is known as the Leggett farm, two miles from Pomona. It was predicted the corn would make over fifty bushels of corn to the acre, but it is so badly blown down that no estimate can safely be made, while the damage is very great.

G. E. Harrison & Sons have opened a garage in the Andy Elmore Garage near the depot. Ben H. West will be the experienced workman who will "fix your flivver while you wait." They will install machinery and a full line of auto accessories and cater to the public for all work and business in their line.

T. M. Rector is just getting in a lot of new fixtures for the Rector Cafe. When all installed he will have a row of fine wall mirrors on both sides of the room, will add several tables that will occupy a portion of the space formerly used as a butcher department and make of the room a neat and attractive dining room. When complete the Rector Cafe will have no equal between Knoxville and Nashville. It will be such a restaurant and short order place as many towns much larger than Crossville cannot boast and our people should feel proud of it. Mr. Rector is to be heartily congratulated on his enterprise in providing such a splendid restaurant for our town.

Mrs. H. J. Dunbar and daughter, Miss Vivian, left Sunday for Oliver Springs, Roane county, to take up their work as teachers in the school there. Miss Hallie Dunbar went to Rockwood to take a place in the city schools.

Last week Bilbrey Brothers bought what is known as the E. B. Jones residence property and an acre and a half lot west for \$3,000. The property belonged to J. A. Long, who bought the B. D. Lemert farm a few years ago and sold it and returned to East Tennessee. Bilbrey Brothers plan to tear down the large barn and use the lumber for a warehouse on the east side of the lot near the T. C. tracks. The residence will be moved to the corner of the lot it now stands on or across the street west to the acre and a half lot.

Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.

AFTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling.

The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day.

Your doctor will tell you this is sound advice, and urge you to follow it.

If you want dry cleaning, dyeing or laundry work, bring it to Reed & Smith's store or notify me and I will call for it. H. G. McCartt. 9-1-2t.

Mrs. Mildred Sweetland is here from Kalamazoo, Michigan, visiting her aunt, Mrs. Lucy Beadle.

Read this letter from Mr. J. B. Kelly, vice-president of the First National Bank, Graceville, Fla.: "My daughter had been in bad health since last April. She was operated on for appendicitis. She has been taking Ziron for two weeks. Her appetite is better than it has been. Her nerves are better, and she says she feels better. . . I know that Ziron is good for weak and feeble people."

Ziron is a scientific, reconstructive tonic, prepared from valuable strength-building ingredients, for weak people with thin blood. Druggists sell Ziron on a money-back guarantee. Try it.
